

State of the **art** constructions for industry

— CONCEPT / DESIGN / CONSTRUCTION / MAINTENANCE

About us

As ART Building, we are the general contractor and designer construction investments. Our specialty is industrial construction, and the main task - comprehensive investment implementation along with after-sales service.

In our daily work, we are primarily guided by flexibility, attention to quality and responsibility for the created projects. We pay special attention to cost optimization and fast implementation time while maintaining high standards. Our actions have been trusted by both local and international companies for which our knowledge and experience constitute the basis for effective cooperation and success.

Range of activities

Art Building

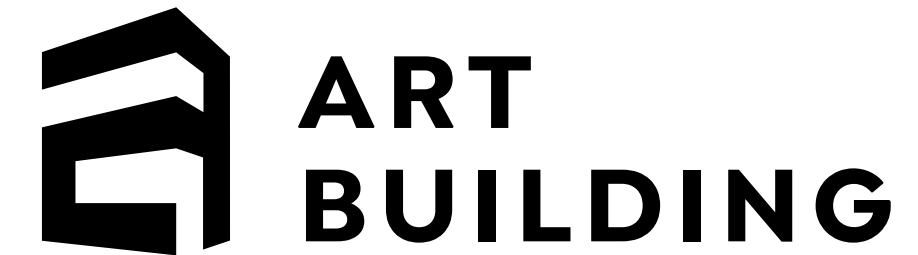

Work owf Design & Build system, project's general contractor system and own development investments.

What do we build?

- hall / industrial buildings
- service buildings
- residential buildings

How do we build?

- general contractor
- design & build
- subcontractor

Design and construction of playgrounds and rope structures. Each project is functional, interesting and – most importantly – completely safe.

Design and construction, rental and sale of office and service buildings.

History

ART Budownictwo arises from skills and passion.

2002

2005

Formation of Magic Nets company

ART Budownictwo is changing into ART Building, expanding its activities, with foreign markets in mind.

2012

2014

Implementation of the first investment outside Poland, achieving one of the greater goals of the brand.

The first industrial investment in the „Design & Build” system is made.

2015

2019

Commencement of works on the construction of a separator factory SK hi-tech Battery Materials Poland. The value of the works was PLN 150 million.

A daughter company of the ART Building brand – ART Office – is established.

2020

2021

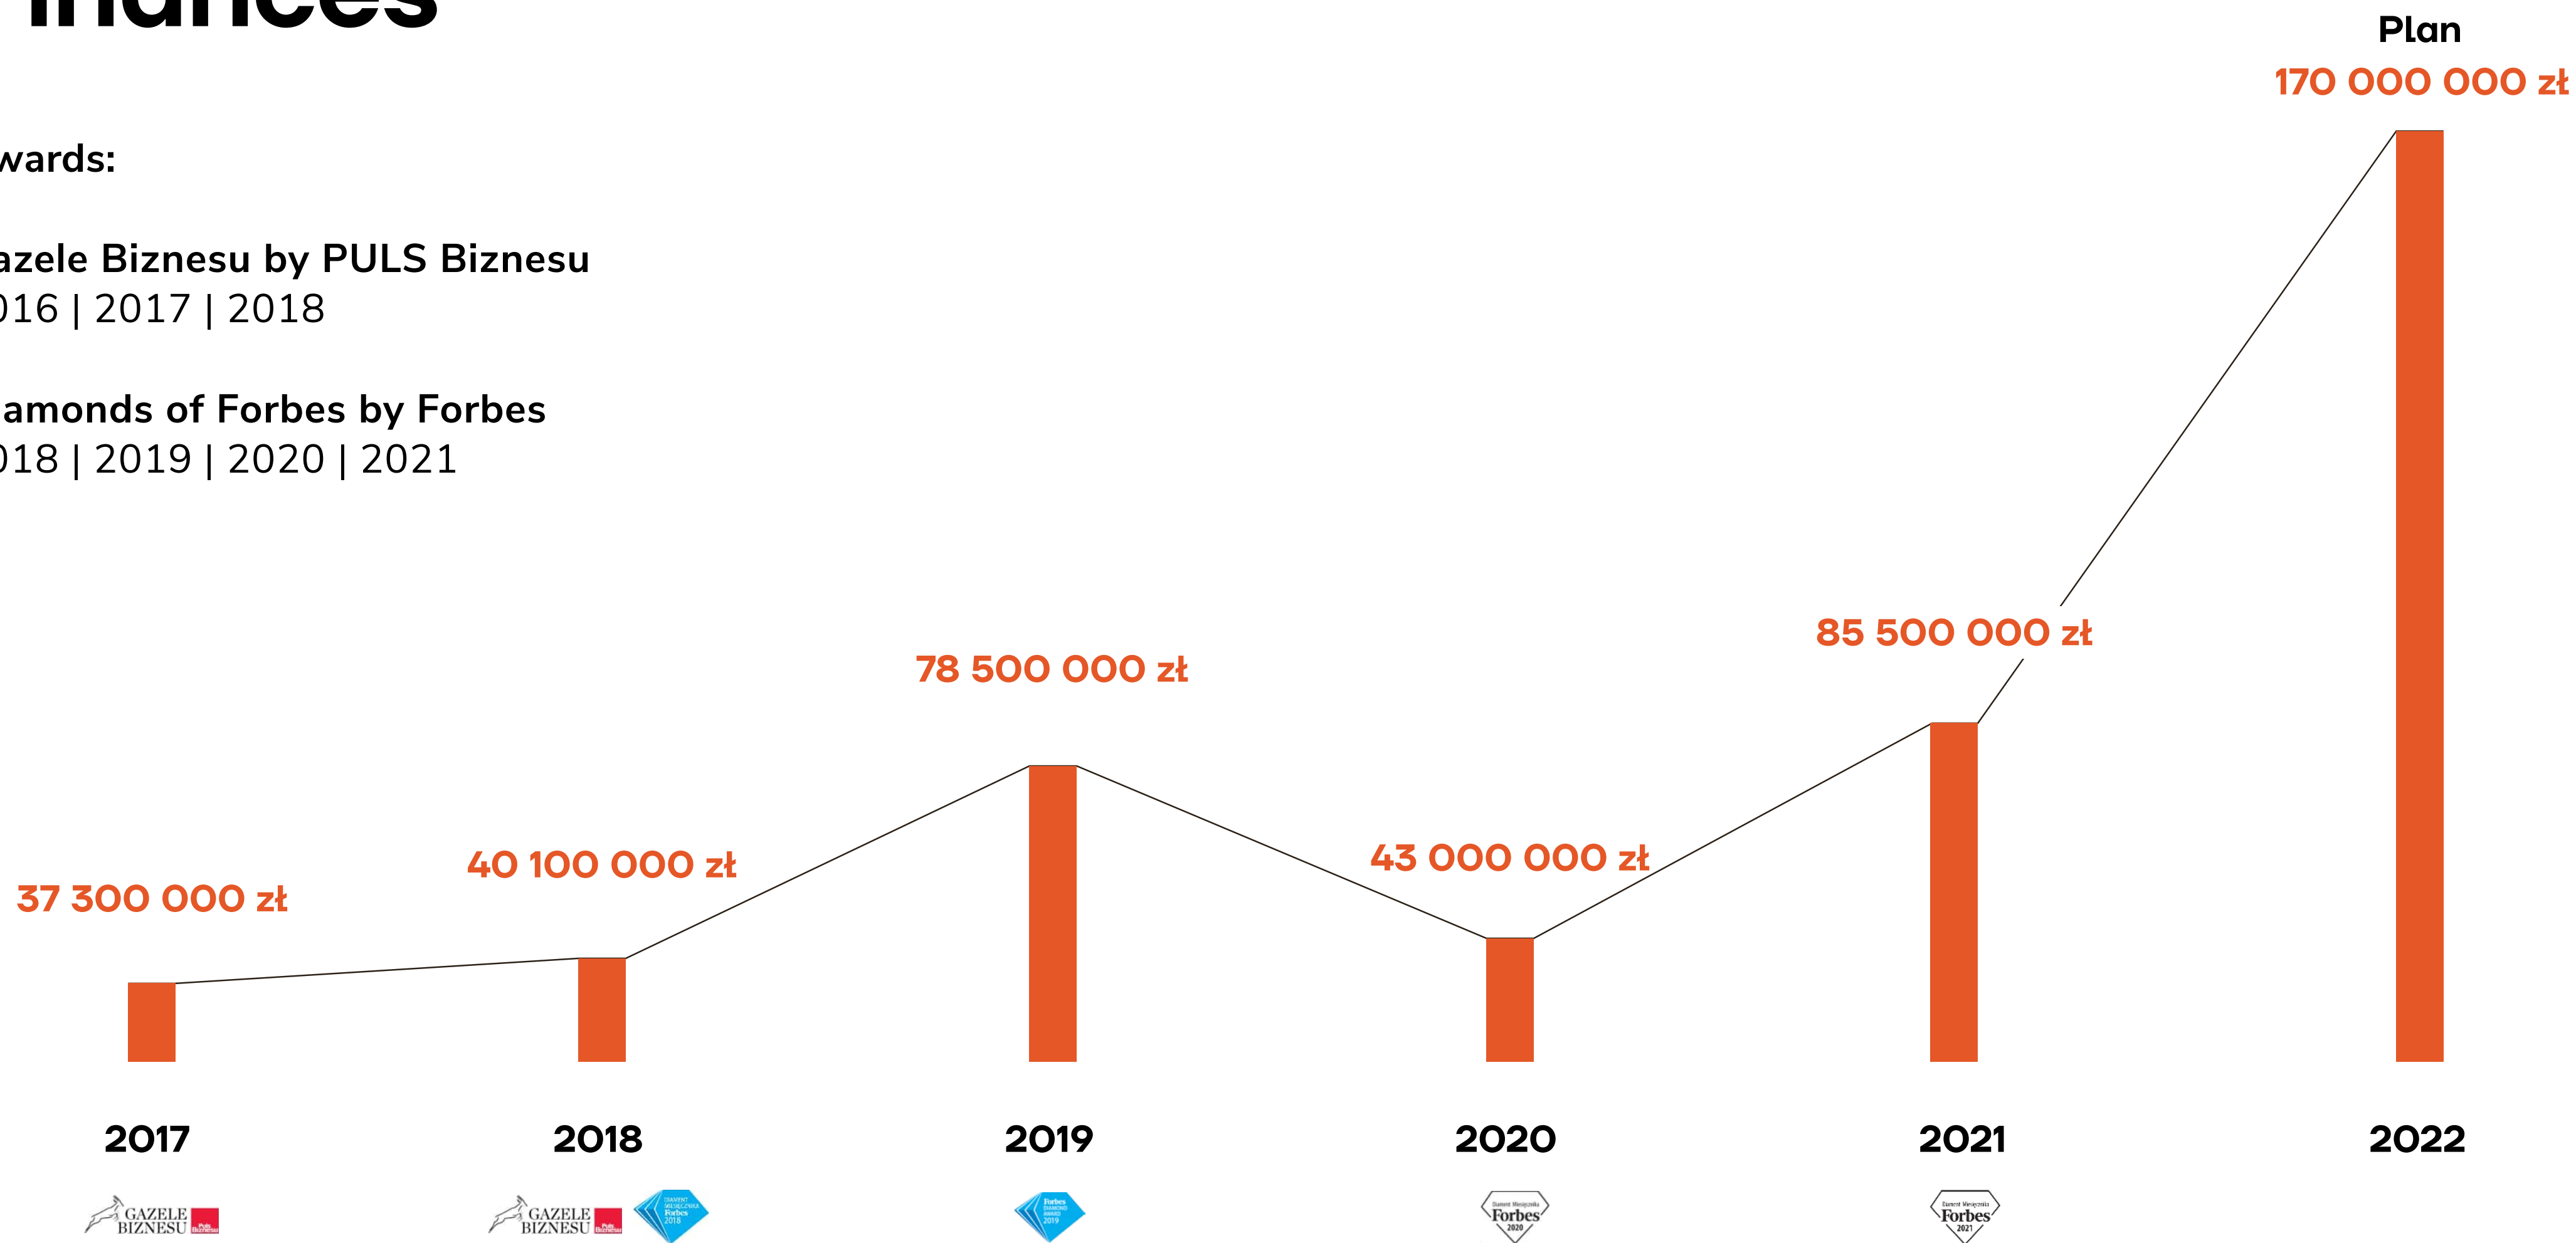

Commencement of own construction investment.
